PROFILE

I am an experienced and goal-oriented Computer Junior Programmer, characterized by a mature and loyal work ethic. Possessing a strong commitment to both independent and collaborative work, I am a reliable Project Manager with a proven ability to consistently meet deadlines. My proficiency extends to both web development and software development, and I bring valuable experience gained as a Peer Assistant Educator at Walter Sisulu University. Presently, I am enrolled in the Software Development Program at UVU Africa, with an anticipated duration of 18 months. This program serves as a pivotal platform for the enhancement of my skills and professional growth, allowing me to expand my knowledge in the industry.
